Headline: Weisel Wows them at the Wyndham

Dear Jacques,

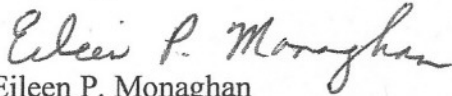

You certainly did! My hope was to start our largest conference ever with an upbeat but educational and motivating keynote. You certainly surpassed that goal. The attendees poured out of the general session room literally flying to their breakout sessions.

Your presentation to our almost 400 attendees was well developed and right on target for a group of entrepreneurs. These people work hard all year and come to our conference to be refreshed, reinvigorated and to learn things that will make the upcoming wedding season even better. They got that from your keynote session. Your humor was enlivening and totally appropriate for the audience.

The Senior Members only seminar also was a success. I had to control the admission at the door, since many attendees wanted to hear more, but it was limited to Senior Members. It was still a standing-room-only crowd. ABC members who have been doing wedding consulting for years, came away refreshed with new ideas to use in 2008. That's exactly what the session title promised them.

It was — as always — a pleasure working with you in the preparation for your appearance. You are so upbeat! Let's do this again soon!

Sincerely,

Eileen P. Monaghan
